

VOTE YES

on March 2nd

*at the Shepardson Community Center
For the Public Safety Communication Upgrade*

Right now, you are not safe in the event of an emergency.

Middlebury's first responders are relying on an antiquated and faulty public safety communications system that malfunctions half the time.

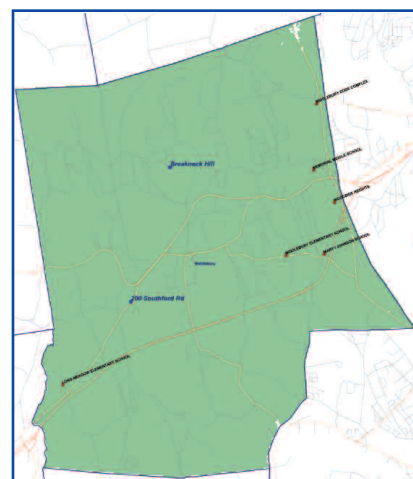

Police officers are often not able to radio into dispatch from the scene of an accident, crime, or other emergency.

Don't Take a 50/50 Chance on Your Safety

Middlebury Residents Deserve To Be Safe

“ Our police officers' **radios do not work** in our area's schools and local senior centers, putting children and the elderly in danger. ”

Ed Demers

Police Officer, Middlebury PD
Member, CSEA/SEIU Local 2001

“ All public safety communications – police, fire, ambulance, and elderly services – **need to be part of a reliable system.** ”

Ray Kasidas

Volunteer Firefighter, Middlebury VFD

“ We need an appropriate **public safety communications system** for our first responders. These individuals are on the front lines responding to our safety needs. ”

Mike Kenausis

Middlebury resident

An overwhelming number of our neighbors are supporting the **referendum to update our town's emergency communications system** and will be **voting YES on March 2nd** between **6:00 AM and 8:00 PM.**

James Smith	Mike DeSantis	Ron Seavey	Joanne Reynolds	Mickey Brown
