

# ***Tell the Board of Education: Keep Bus Services Local!***

At a Special Town Meeting on April 29, **Preston residents voted unanimously to oppose outsourcing the community's school bus services.** Despite the high public profile of the meeting, only one member of the school board attended.

**Worse, the majority of the Board of Education ignored the voices of town residents who want to keep Preston's bus services local** when they voted in June to move the outsourcing process forward.

## ***Contact the Board***

So far, school officials have failed to include the public in a critical decision that will impact student transportation services. Call each member of the Board of Education today and urge them to **put the brakes on outsourcing until they hold a public hearing:**

## ***Sign the Petition***

The Board of Education should listen to the residents they serve, and **consider their concerns before putting the health and safety of Preston's most precious cargo in the hands of outside companies.**

Sign the school bus drivers' petition today to urge officials to **listen to the people of Preston.**

**Call Kevin Mercik at (860) 894-9479, ext 139 or visit the Union's website at [csea-ct.com](http://csea-ct.com) for petition forms**
