

Quality Services for Our Children, Good Jobs for Our Community!

Preston has some of the best school bus drivers in the state. So, why is the Board of Education trying to **contract-out bus services?**

Many of our drivers are long-time community members who live right here in Preston. The Board of Education shouldn't **put the health and safety of Preston's most precious cargo in the hands of outside companies just to save a few dollars.**

Tell the Board of Ed: NO to Outsourcing!

Call each member of the Board of Education today
and urge them to **put students first:**

Attend the Next Board of Ed Meeting

At the Special Town Meeting on April 29, **Preston residents voted unanimously to oppose outsourcing bus services to an out-of-town private company.** It is critical that parents, grandparents, teachers and other faculty, and all taxpayers attend the next school board meeting and **make sure school officials get the message:**
