

Under a progressive income tax, Connecticut families making \$600,000 a year or \$12,000 a week would only pay \$20 more.

\$20 a week will buy . . .

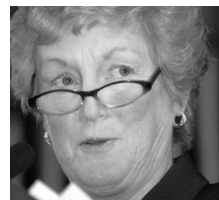

- 2 movie tickets
- 4 mochaccinos
- 2 paperback beach books
- 2 bottles of sunscreen
- 3 ice cream sundaes
- 1 large pizza with the works

There are hundreds of thousands of families in our state who make \$12,000 a year. For those making over \$12,000 a WEEK, is a pizza too much to ask in exchange for protecting Vital Services?

For \$20 a Week We Can Protect

- . The Life-Star Helicopter
- . Nursing Home Care
- . Head Start Programs
- . Aid to Public Schools & Colleges
- . Mental Health & Addiction Services
- . Public Libraries

Tell the Governor

that cuts hurt people and our economy.

Tell her it's time that everyone starts paying their fair share.

Governor Jodi Rell
